

# “The State Of Alexander County Presentation”

2016

“When Will The Nightmare Be Over, And  
Alexander County Citizens Wake Up?”

By: Dr. Stan A. Frye  
President of Gateway International Missions  
Pastor of Gateway International Baptist Church  
5937 Rink Dam Road  
Taylorsville, NC

## **Proud To Be A Native Of This County**

It goes without saying that I am very proud to be a native of Alexander County. I was born in this county way back in 1947, and I was reared in a home that wasn't very spiritual, but one where there were some good traditions, the proper value system, and a tremendous work ethic. My wife and I attended Bethlehem Elementary School and graduated from Taylorsville High School. We attended two good churches here in the county, and at the age of nine, we both gave our hearts to Christ. Later as a young married couple, we surrendered our lives together to Christ and began to seek His will for our lives seriously.

As we sought the will of God, we both were so thankful for the good teachers and school administrators that had made such an impact on our lives throughout our years here in the Alexander schools. We sincerely cherished those days in our classes when we could pray and yes, even have times of devotion and Scripture memorization with the reading of the Bible. And believe it or not, it was such a privilege for the students to even submit prayer requests so that we could pray about each other's problems. And then, we remember how things began to erode because of government laws and rules which were implemented because Christians, churches and school leaders would not stand up for truth.

### **No Place Like Home!**

After my wife and I surrendered our lives to serve Jesus, we traveled much all across America and in other parts of the world. During 50 years of ministry, we have lived in five other states and in several other places here in North Carolina. And, we have worked in Africa for over 31 years. But regardless of where we have traveled or lived outside of Alexander County, we have always gravitated back here because we love and cherish these foothills of North Carolina. We have also always loved the people of this county! I suppose you could say, "There is just no place like home", especially here in this garden spot of the world!

### **More Wonderful Things About Alexander County**

During those early days living in our county, when a person or family had problems or questions, we could feel comfortable going to our leaders and asking them for help because we knew that most of them could be trusted. We didn't expect them to give us politically correct answers while providing no answers to help solve our problems. If we had a problem in our

communities, these trustworthy leaders would take notice and try to solve the problems we had regardless of their political party, race, economic class or ethnicity. And, they would do it with no cowardice or reluctance based upon the possibility of law suits or attacks by the state or national governments when they knew that what needed to be done was right. These leaders knew indeed what was right and what was wrong!

Also, during those memorable days we had strong pastors and churches in the county who would take a stand for what was right based upon the truth of the Bible, even if they needed to look over some doctrinal differences on things that were not fundamental to what we believed. We had countywide crusades working together trying to reach our people with the Good News of Jesus Christ, and hopefully, rescue many of our young people before they destroyed their lives with alcohol, drugs, immorality and ended up in suffering and misery. I can remember some of the most dynamic young people I ever met working in the countywide crusades and in living a righteous lifestyle. Did we reach everyone and salvage their lives? Why, of course not! But, we reached a lot of them that God really changed! And, many of these dear young people went on to be dynamic Christians, moms and dads, and they helped set a good example for others to follow when they established their homes and families.

### **There Were Jobs And Much Agriculture**

Back in the 1950's, 1960's, and 1970's there were many problems in America and some here in Alexander County, but God always seemed to provide for the citizens of this county with what jobs we had, such as furniture, textiles, raising chickens, raising tobacco, and farming much of the land. And because there were not enough jobs in the county, many people had to drive to Catawba or a few other counties to find work. My dad did this working faithfully in the furniture industry for 42 years. It would have been better to have had more jobs here in the county, but the other counties near by were a blessing. So, God truly provided for His people, and without the necessity of placating perverted business owners to keep jobs in the county. Most people back in those days had good traditional moral standards, even if they were not Christians or attended church. The residents rarely sold their souls for money in those precious days! They just prayed and trusted God to provide, but they did work extremely hard and were not always dependent upon the government to supply their needs. And truthfully, these dear people had a sense of dignity and worth, in spite of tough times. Most of the people

of Alexander County were not rich, but I can tell you that overall, they were happy and grateful people, just knowing how God had blessed them.

## What Do We Have Today?

But my friends, what do we have today in this county as we see this beloved place going down hill in a death spiral out of control because of the wickedness, greed, immorality and political correctness which is truly destroying this marvelous place to live? Well, first we have so-called good people in positions of leadership, such as the County Commissioners, who promise to do so much, but because they are cowards when it comes to taking a stand for what is right, they do everything possible to circumvent the county government rules because of their loyalty to their buddies and to those who promise them riches from the world. They allow homosexual business people to bully the true believers in the county who want to stand up for righteousness, just because the county might need some more jobs. They also, make end runs around the liquor laws which have been in place for a long time, just so they can accommodate their buddies and bring in some more money, even if the county voted the liquor out years ago. And these commissioners allow business people in Bethlehem and a few other communities to present lies about the money which could be gleaned by people who get drunk, destroy their families, kill people on the highways, and spend megabucks trying to find a solution to their addictions through rehab programs in and out of our area.

Why, just recently, our church helped bail a man out of jail here in the county because he was hooked on pain medication and had gone back to jail because he violated his probation. And, because alcohol is truly a hard drug, I just wonder how many homes have been destroyed in this county, even if the people have to go out of the county to get it? Drinking alcohol is a dreadful thing, along with using the hundreds of other kinds of drugs that are rampant in our country and in this county breaking up homes, depriving children of food, clothing, shelter and personal security. I have worked in prison ministry for over 40 years, and most of the people that are in prison are there because of the use of alcohol and other drugs. Yet, we have foolish people in our county telling us that it is better to deal with these issues by making alcohol more available to our children and young people without having to go out of the county to get it. This is about as useless a statement as saying that a duck needs a lifejacket to swim. I can't believe that any person could ever believe that the answer to less is to provide more. Oh yes, I hear these ardent people say that the Prohibition Days teach us that we can't

vote out liquor by the drink and downsize the flow of alcohol because it didn't work back then. Well, it didn't work out back then because we had gangster mobs who tried to get rich by bootlegging alcohol and ended up killing people in the process. This is what we have today when so-called business people, and some who call themselves Christians, are trying to get rich off of liquor tax money from the sale of booze, while they kill hundreds of people by making it more available for people to drink. If any citizen has a conscience at all, he or she will surely vote against this mad incursion brought about by cowardly County Commissioners who circumvent the laws for their buddies. It would be far better to have to downsize the budget and reevaluate our spending, rather than bring in funds from blood money which is called taxes.

### **What Else Do We Now Have?**

What do we have today in our county? We have corrupt school leaders in the public schools who live together unmarried, and then place lesbians and homosexuals in the positions of principals, teachers and coaches because they want to be politically correct and cater to these perverted and twisted people that yes, God still loves, but He doesn't love the damage that is being done to the students that these people supervise, teach and coach because of their twisted value system. Thousands die every year in the world because of AIDS and other sexually transmitted diseases, but you hear almost no one talking about it because they are trying to cover up what is actually happening. I have probably seen more deaths because of AIDS and sexually transmitted diseases than anyone in this entire county because I work in the prisons of Africa where forty percent of the people have AIDS. Yet, here we promote homosexuality, lesbianism, adultery, fornication, and other sins of the flesh, just pretending that these people will not die, and for sure, they will not have to give an account to God. But the truth is, what we believe about the Bible doesn't determine what the Bible teaches. It is truly God's Word and absolute truth, in spite of what so-called super-educated people believe about it. Romans, Chapter One, tells all of us what God thinks of this wicked mess that is being crammed down our throats by business people, twisted school officials and teachers, and even by the ruling of the United States Supreme Court. In Proverbs 14:34, the Bible says, "Righteousness exalteth a nation: but sin is a reproach to any people." Yes, God truly loves the sinner, but a sinner has no hope unless he or she realizes that what he or she is doing is sin against holy God and then repents of that sin and turns and goes in the other direction.

## **What Ted Bundy Told Me**

Back in 1976 I started my forty plus years of prison ministry by working in Florida State Prison. During those regular visits to Florida State Prison, I spent literally hundreds of hours with some of the worst criminals in America. The most noted one was Ted Bundy. Most of you know that Ted was eventually executed after many years on death row. When I think about Ted, the thing I remember most about him was how he tried so hard to do away with guilt.

One morning I went back to Ted's cell on death row, and when I got there, he was reading his Bible and making notes on a yellow legal pad. I asked him what he was doing, and he told me that he was writing a commentary on the Sermon on the Mount. I asked him what he was saying in his commentary, and he told me that he was getting rid of guilt. He said, "there is just no way that I can accept or admit guilt. Then I said to Bundy, "Ted, I feel very sorry for you." He said, "Preacher, what do you mean?" I said, "if there is no guilt for the sins we commit, then there can be no cognizance for sin. And, if there is no cognizance for sin, then there is no awareness of sin and no need to repent." And then I said, "If there is no repentance, then there will be no forgiveness." Bundy said to me, "Reverend, I never had thought about that".

Well, Ted did need to think about that because he ultimately faced death and then stood before a righteous and Holy God. But you see folks, we have this Ted Bundy kind of thinking here in Alexander County and in our country. We have come to believe that because we have a loving God, He will tolerate every kind of sin that we commit and never hold us accountable. But the truth is, God does love the sinner, but He can't and He won't forgive unless we repent. Therefore, we have the immoral mess that we have because of our blatant rebellion against the truth of God's Word. The people here in our county who believe in this political correctness are just trying to fool themselves and others because they just hope that they will never have to answer to God, but friends, they will! And, so will all of us!

## **Just Think About This!**

Years ago in our Alexander County Schools, we had prayers and devotions when we started the days. Now, we have to have periodic drug sniffing dogs going down the hallways of our schools sniffing the lockers because there are so many drugs in our schools and nobody has the courage to adequately deal with this matter. Children and young people go to school every day not knowing if they will be safe during the time they are at school, and many go home still talking about sexual misbehavior, the drunken parties

they have been going to, and some even planning their next ungodly excursion via their I-Phones and facebook. And yet, because of the so-called “tolerance”, which is being promoted by the progressives, we who believe in trying to live right according to the principles of God’s Word are considered the bad guys.

Also, have you ever stopped to think about the damage we are doing to our children and grandchildren by paying megabucks to send them off to what are supposed to be great colleges and universities of our days, only to have their faith in God destroyed by secular humanists and atheistic professors. When many of them finish these schools, they come home and never attend church until one day later in life when they have major catastrophes in their lives. So, we just pay big money to have the faith of our children destroyed, and we think that because they go to these well-known schools, they will come home well-adjusted, ready to become successful, and ultimately will make a lot of money.

## **What Are The Causes Of This Downward Spiral In Our County And Nation?**

I suppose the list of causes that are bringing Alexander County and our nation down is endless, but let me just list some of the reasons for the coming destruction on what used to be a great county and a great nation.

First, the primary cause is the wicked and sinful nature that all of us are born with. Yes, regardless of what the progressives and liberals teach, according to God’s Word (Romans 3:23), all of us are born with a sinful nature that is capable of the worst sins ever imagined if this nature is not brought under the control of God’s Holy Spirit. And truly, the longer a human being lives in sin and the longer a society travels down the road away from God and His absolute Word, the more wicked and corrupt this person or this society becomes. Sin is like a cancer that isn’t given any attention until it is too late. One of the main causes of the destruction of the Roman Empire was the wickedness of the people, and the loose morals of its leaders. All the way from Washington, DC right on down to our very own Alexander County, we have lying corrupt leaders that can be bought with money and influenced by selfish self-centered people with money but no morals. Even many good people are so cowardly that they refuse to stand up for anything righteous if there is a chance of it costing us money or a little ridicule. These cowardly leaders will sell their souls to the devil if they think they can get more money through deceptive means in order to give them more power and influence.

This is all because of the sinful nature of man which always leads to rebellion against God and the ultimate destruction of human beings and civilization.

## **The Terrible Genocide In Rwanda**

Since 2006, my wife and I have maintained a ministry in the East African country of Rwanda. In 1994, the Hutu Tribe tried literally to destroy the Tutsi Tribe with a horrible blood bath. In just over 100 days, April through August, almost one million people were butchered. Friends killed friends, family members killed other family members, pastors and church leaders killed their own parishioners, and in just one church where my wife and I went, over 10,000 people were murdered. Rivers flowed blood red while dead bodies stopped the flow of the rivers and over flowed their banks. What was behind this terrible ordeal! The government leaders told us that it started a long time ago when the professed religious leaders started straying away from God and they lost all of their convictions and morality because of Satanic seduction. One step downward led to another terrible step until by the influence of a former President's wife who was literally a witch allegedly hired someone to shoot down her husband's plane as he flew back home to Kigali one night in April. This was the planned first shot that would ultimately destroy over one million people's lives. During those years leading up to this genocide, the people began tolerating every kind of sin, even child sacrifice in the worship of Satan. When my wife and I entered the prisons in Rwanda, there were over 100,000 prisoners in just sixteen small prisons. It was like wicked refugee camps when we went there to minister. While sharing Christ in those prisons, scores of people repented of their sins and turned to God in brokenness and begged for forgiveness. God has done great things there and the country is coming back, but my, what a tremendous tragedy!

We might say that it must have been terrible for people to stoop so low and rebel against God that they would offer children as sacrifices, but yet, isn't this what America has done through butchering almost 60 million babies through abortion since 1973? We Americans might continue to say that these primitive Africans must be terrible, but yet, we have blood dripping from our hands in the name of personal choice. When we start to follow the desires of our sinful natures, we are capable of the most heinous action unless we come to Christ and confess our sins and plead for His mercy. Folks, this is where we have come to here in our own county when we give out condoms and recommend abortions without parental permission while demanding that parents sign permission slips before an aspirin can be

given to a sick child. It is not the children that are sick, but it is the twisted and confused people who pretend to be great leaders who are sick spiritually and morally. You might say that our county and country have become totally and completely morally and spiritually bankrupt! Why, because we have succumbed to the lust of the flesh, the lust of the eyes, and the pride of life because of our innate sinful nature which is in rebellion against Almighty God

### **Tolerance Is A Tool Of The Devil**

Dr. G.H. Chesterson said, "Tolerance Is the virtue of a man who has no convictions." And, this is the most valued trait in America right now. Just suppose that we would have had this tolerant attitude towards Japan when they brutally attacked our country back in 1941 at Pearl Harbor. Or, what if we would have just tried to coexist with Adolph Hitler while he was trying to wipe out every Jew that lived. You see folks, coexistence with evil just doesn't work. There has to be righteous people who will stand for what is right in a sinful world where Satan is out to destroy every child and young person with alcohol, drugs, sexual immorality, and every other evil tool that is known to man. But, the main thing he is using is tolerance because this is the main tool that Satan always uses against God and His people. When we tolerate wicked behavior, how dare we think that good will come out of this.

Pay attention to the following paragraph from a recently revised book written by Dr. Robert Jeffress, pastor of the great First Baptist Church of Dallas, Texas. In his book entitled, "Twilight's Last Gleaming", page 87, Dr. Jeffress talks about tolerance. "For you and me to be the salt and light Jesus commanded us to be, we must reject every vestige of pseudo tolerance. Salt must remain salty to be an effective preservative. Light must not be hidden to illuminate the darkness. If we buy into the concept that all moral choices are equally valid, we have no logical reason for opposing those behaviors that will hasten the destruction of our culture. If we subscribe to the idea that all paths ultimately lead to the same God, we have no basis for proclaiming that Jesus Christ is the only Light that will direct people toward heaven." This wicked idea of tolerance is the reason we have scores of progressives and liberals now saying that we ought to tolerate every radical Muslim, and change them by our love, even when they are hell-bent on killing everyone of us. I assure you that Muslims can change, but only through the power of the Gospel of our Lord Jesus Christ. I know this for a fact because I deal with Muslims on a regular basis in the prisons of Africa. In fact, through our ministry in Cameroon two Boka Haram terrorists recently gave their hearts to our Lord Jesus Christ and were

baptized in public expressing their new found faith. Radical Muslims or any other misguided religious people cannot change without having their hearts changed by God. We can't coexist with people who want to destroy us by their psudeo tolerance (phony tolerance) and expect to save our children and young people from the deception and destruction of the devil. It is truly time for us to stop tolerating evil tolerance!

## **Corrupt And Cowardly Leaders Are A Major Part Of The Problem!**

The second cause of our downward spiral to destruction and ultimate demise is the existence of corrupt and cowardly leaders. And yes folks, believe it or not, we do have some of these people here in Alexander County, and you can find them all the way to the top in Washington, DC.

Now, I am not going to call names in this article, but one doesn't have to look very long before finding the leaders of our government and schools who are constantly intimidated, browbeaten, and bullied by business people who scream with indignation at genuine believers in old fashion morality, proven traditions, and real truth from God's Word. These evil and corrupt people attack their opponents because they don't have a valid argument with truth. So, they just start lambasting, castigating, and bullying those who stand for what's right. And, it is so sad that some pastors and church leaders here in Alexander County and in other parts of our country stand up and defend these empty and vain people just because they brought some jobs to our community, helped pay for some church facility in one of our neighborhoods, or maybe give a large donation to a local club or organization. In other words, these scared preachers and pastors just give one side of the Biblical message, and that is the love of God side without presenting the righteous conduct side. I believe that many of these professing God-called pastors and church leaders are just afraid that they might lose their jobs, or that one of their perverted members might quit giving to their church. In other words, they are not true prophets from God, but like in the days of Jeremiah in the Southern Kingdom of Israel, they are hypocrite preachers who have become religious pretenders. If you don't belief this, take your Bible and read carefully Jeremiah, Chapter 23.

So, if these charlatan government, school and church leaders are here, then we need to get rid of them before they destroy our children and youth. Therefore, we must lovingly, but yet firmly, stand up, present the truth as to what is happening, and then make sure that these people get other jobs and political positions elsewhere. If there are some business people providing

jobs for the community but castigating godly people, then the believers who work for these businesses must quit their jobs and trust God to provide a better place to work because supporting evil people will never bring the blessings of God to our families or communities. Some of these evil people would not even have businesses here if God's people would have taken a stand for what is right long ago, and then have trusted God to provide better opportunities. As we have heard so many times, "Evil only flourishes when good people do nothing". Don't you think that it is about time to put these evil people out of business and on the road to some overtly wicked community where they will fit in; maybe San Francisco!

### **Selfishness Is The Killer!**

Another primary cause of the terrible downward spiral in our county is just simply plain selfishness to the endless degree. Selfishness is a horrible thing because of the self-centered attention that one gives themselves. Selfish people don't care about others, and truthfully, they don't care much about God, unless it might be about them begging Him for stuff for themselves. Someone said years ago that the smallest package on earth is someone wrapped up in themselves! Oh, how very true this is! And, this selfishness leads to terrible greed and produces money seeking people who would sell their souls to the devil and even tolerate the destruction of their children and grandchildren if they have to in order to get more money.

So, when these selfish people who usually are also ladder climbers and ambitious power seekers get in positions of authority in our county or anywhere else in our country, tragic things begin to happen. These folks develop budgets with a leaning to helping those who have given them the most money, and therefore they initiate a vicious cycle which never seems to end. Therefore, year after year these government leaders need more and more funds to enlarge their budgets, and so they lower their standards and compromise their convictions in order to get evil people to give more and more. And, if they can't get more from these wicked people, then they raise the taxes on the citizens and never give one thought to downsizing any of the pet projects of those in government or in the public schools. So, the vicious cycle gets bigger and bigger each year and almost no one has the courage to hold these selfish and sometimes wasteful people accountable. According to the "Governing The States and Localities" web site, it presently cost \$8,512 per student per year to attempt at educating our children and youth here in North Carolina. And, while the cost continues to rise, the quality of education goes down, especially in the areas of history,

geography, civics, and some other subjects which are very important to life. North Carolina rates 14th in the nation in Science and Math, but much lower in some of the others subjects. What's my point? My point is that while we keep spending more and more to educate our children, we get less and less truthful education in subjects that matter most. My evaluation is that we have taken God, prayer, the Bible, and truthful traditional history out of our schools, and yet, we teach sexual behavior, how to use condoms, indiscrimination toward perverted sexual purveyors, and we continue to reap what we have sown. The law of the harvest is the only law that can never be broken! So much of what is happening is because of selfish desire for money and selfish indulgence in sin without any accountability.

### **Counterfeit Churches And Phony Pastors**

In Jeremiah 23, which I referred to earlier in this article, Jeremiah told the people in Jerusalem that one of their main problems which was destroying their nation was counterfeit religion and hypocritical prophets who only told what the people wanted to hear. This is so true even right here in Alexander County. Yes, we do have some wonderful churches and some good pastors. But, we have some counterfeit churches with compromising phony pastors who only tell the people what they want to hear and not the complete truth of the Word of God. They change the Scriptures to accommodate the sins of their people, and they stand for very little that is righteous. As I stated earlier, God is truly a God of love, but He is also a God of righteousness. It is a lie straight out of the pits of hell that we can profess to follow Christ while at the same time living in sin. We have this here in our county because we just don't want to offend anyone. I would remind you that the message of the cross and righteous living has always and forever will be offensive to those who are lost in sin. Do you remember the story of the woman taken in the very act of adultery and brought to Jesus? This is found in John, Chapter eight. Jesus forgave this broken woman, but He also told her to go and sin no more! He didn't forgive her, then bless her, and after this send her away to go and keep sinning because He would forgive her for her future sin. And yet folks, this is what we are trying to do by having counterfeit churches and phony preachers telling stories and providing weekly therapy for wicked church folks who never are challenged to repent and get right with God. May God forgive these counterfeit churches and hypocritical cowardly preachers who are job scared and controlled by money givers.

## The Only Hope We Have

By now, some of you readers might be asking, “what can we do to save our county, our children, our youth, and yes, the morality and spiritual integrity of this land”? Well, let me tell you that I didn’t choose to be in the ministry! God called me to this position, and so humbly I will make the following recommendations to help save Alexander County, our State of North Carolina, and even the nation we live in.

The first thing we must do is repent of our sins and rebellion against our wonderful Lord. When we do this, we will return to His Word and try our best to live our lives by Biblical principles. This means that we must cry out to God for spiritual revival so that God will come and bless us with His presence and power, instead of allowing us to go on and destroy ourselves.

Secondly, I would recommend that our churches need to select great pastors and church leaders to lead these congregations to stand for truth and righteousness; even against the vile wicked perverts who pressure them to compromise with sin. And, our churches need to come together like they use to to make a collective stand against the evil forces that are here and others that will try to come to destroy everything good and righteous. As children of God, we must do all we can by working together to win as many of our citizens to Jesus so that their lives can be dramatically changed. This means that we must offer love to even those twisted people so that they too might be saved, but we must not and we cannot tolerate their wickedness. If they refused to repent and change their lives, then we must not allow them to remain comfortable living here and further contaminating our society. We are to continue to be the salt and the light!

Thirdly, we also need to start prayerfully and intelligently electing trustworthy government leaders who will not be persuaded to follow these evil people who try to bully conservative people just because they have some money that they think they can use to further buy tolerance for their wickedness. These new leaders must be elected and then held accountable by pastors, church leaders, traditional conservatives, and by people who love this county, but refuse to tolerate the mess that has brought us to where we are today.

Fourthly, we as God’s children must stand up against these money grubbing leaders who want to bring into our county alcoholic beverage regardless of how the people have voted in the past and in spite of the damage that is being done to the individuals and homes within our county. **We must go to the poles this November in droves and vote down all four of the proposed alcohol related laws which they are trying to**

pass, even when the county has said no in the past. Evil people never stop until they contaminate others with their evil desires. **Jesus said, “what shall it profit a man if he gains the entire world, but yet lose his own soul”. (Mark 8:36)** All the tax money in the world is not worth one drinking teenager dying in an automobile crash, one wife and mother living in absolute hell because of a drunkard husband or father, and one human being living daily under the power of alcohol and having to spend the rest of his or her life in rehab or prison. You see, bringing more alcohol to our communities and making it more available to our people is not going to help us solve the terrible problems that alcohol causes every community. And beloved citizens, don't you think it is about time that our churches in Alexander County take a stand against this powerful evil instead of voting on whether their deacons and church leaders should be permitted to drink socially. Try telling your children to not use meth, cocaine, oxycodone, or any other of the destructive drugs if the deacons in our churches are drinking socially because they want to be “big” people. This is absolute “hogwash”, and beyond this, it is completely stupid!

### **One Last Strong Recommendation**

I am very much aware that we have in our county some wonderful Christian school teachers. But you see folks, these precious people have their hands tied by the U.S. Department of Education, the N.C. Department of Education, the local school board, and yes, the local school administrators that are so intimidated by the progressives in our county and country that they won't even allow a prayer at a football game, the mention of God in a classroom, or a student who wants to bring his or her Bible to school. So, what can we do? I will tell you what we must do! The churches of Alexander County must cluster together and start one or more Christian schools and withdraw our children from the Public School System. We must be unified and cooperative even if some of our doctrine is different, and we must support these Christian schools with our personal and church funds so that we can get our children out of the horrible environment in the public schools, and get them into a safe well-structured and well-supervised Christian school so that we can get our children and youth back to the moral and spiritual principles and ethics which this county was built upon. Then, when the Public Schools start losing money because their classrooms will lose children, then they will be screaming for help, and maybe the local school board members will begin to open their eyes to the destruction they have tolerated because of one thing; money!

And before I close, let me tell you that we must not put starting these Christian schools way down the road somewhere. We need to get them up and going very very soon because time is running out for the children and youth of our county. So, let me challenge every pastor to consider getting involved with some lead pastor who is seeking the will of God to start a Christian school. We need to stand with this pastor, help support the pastor, and help provide some finances to get the school up and going right away. Why? Because I believe that all Public schools are non-salvageable at this point. So, we must go with God's method found in Deuteronomy Chapter Six. And, we must spend hours and hours in prayer for revival and spiritual awakening in Alexander County, North Carolina. **MAY GOD GLORIOUSLY GRANT IT!**
